

Licensed Electrician / CEC Accredited Solar Installer

Solar My Home WA is a dynamic and professional organisation specialising in the supply and installation of Solar PV, Energy Storage Systems and EV charging solutions. Awarded NECA Small Business of the Year for 2022 we are leaders in installation standards and service, paving the way for our clients to launch into a more sustainable and energy independent way of life.

As we near the end of 2022 we look towards another exciting growth year in 2023 and are expanding our team, with the opportunity for a motivated individual to join our elite team and join our mission for energy independence. If you are looking to join in on the renewable energy revolution then this may be for you!

West Australian owned and operated we are committed to providing quality products and first class service and installations. We pride ourselves on our solid work ethic, a strong customer focused approach and high level of safety, and provide a complete service second to none.

We set the benchmark in our approach to the renewable energy industry, maintaining unparalleled standards from our consultations right through to our post installation service. Solar My Home WA also prides itself on developing the people who work with us and seek those who wish to be challenged and grow themselves in our innovative industry.

About the role

Based in the northern suburbs of Perth, we are looking for a licensed Electrician with CEC Grid Connect Solar Accreditation to join our team. The position is Mon-Fri with occasional overtime required and will require you to start and finish from our warehouse located in Gnangara.

To be successful in this role you must possess the following;

- A Grade WA electrical licence
- CEC Accreditation
- A passion for your craft
- Driver's Licence
- Minimum 12 months solar installation experience (desirable but not essential)
- Strong work ethic
- Excellent communication skills with a focus on customer service
- Excellent time management and organisational skills
- Top quality workmanship
- Commitment and reliability

Key responsibilities include, but are not limited to;

- Work with the company Director on projects and work to completion
- Installation of solar PV systems for residential and commercial properties
- Installation of residential and commercial solar battery systems & EV charging stations
- Perform solar PV service works & upgrades to existing solar PV systems
- Supervision of apprentice/s
- Completion of all required paperwork
- Liaising with clients
- Attend tool box meetings & promote the values of Solar My Home WA
- Lead your team to project completion in an effective and positive manner

- Coordinate work & assist our scheduling team, if required
- Keep up to date with industry changes

You will be provided with;

- Competitive remuneration - our starting rate for this position is \$48.00ph, based on a 40 hour week, negotiable for the right person
- Mobile phone allowance
- Work van & tools
- Company iPad
- Opportunities for growth within the industry
- A safe, enjoyable and family friendly work place
- Friday afternoon wind down with the team

We believe in excellence, honest work and our people. If you're looking for an opportunity to thrive, this is it. If you possess the required attributes, please forward your resume detailing your work history, qualifications, and references to brad.robson@solarmyhomewa.com.au.
